

Ski Trip 2019 – Muhlbach in Austria

A group of 64 pupils and 8 staff have recently returned from spending a fabulous week skiing in the village of Muhlbach,

Austria. The trip was a big success with good snow, a welcoming hotel and a great group of pupils from years 5 – 8.

All the pupils skied every day. Everyone enjoyed skiing from those who had skied a lot to those who had never skied before and all made brilliant progress, especially those who had never skied on snow before. By the end of the week everyone competently skied from the top to the bottom of the mountain, with skill and control and loved it!

It was an action packed week. Apart from the skiing there was evening entertainments of quizzes, bowling, swimming and a presentation evening.

We had some fantastic compliments about our group from the hotel, coach drivers and ski instructors. All the compliments show what really excellent ambassadors all our pupils were and how proud we are of them. The way they behaved towards the outside agencies, amongst themselves and with the school staff was fantastic and a real credit to themselves, their families and Allenbourn. It was an extremely happy trip, where everyone got to know each other better and learnt they could survive without phones for a week. The bonds and memories they made during the trip will remain with them for a long while and I am sure, serve as an everlasting memory for all those who took part.
